### Detailed Scheduling & Planning

Focuses on the various techniques for material and capacity scheduling. Study detailed descriptions of material requirements planning (MRP), capacity requirements planning (CRP), inventory management practices, and procurement and supplier planning. Topics include:

- ✓ Recognizing Techniques and Practices of Inventory Management
- ✓ Mechanics of the Detailed Material Planning Process
- ✓ Planning Operations to Support the Priority Plan
- ✓ Planning Procurement and External Sources of Supply

#### Purpose

Workshops are arranged by the Chapter, based upon surveys and feedback from the local membership. They are intended to help in honing industry-related skills, aid in self-development, and enhance career opportunities. By participating in Workshops, individuals are also preparing for APICS Certifications such as Certified in Production Inventory Management (CPIM) and Certified in Integrated Resources (CIRM) or earning re-certification points to maintain their certification. This material is best suited to people with either academic or on-the-job experience. They are not introductory workshops and are intended for people with some background in Production and Inventory Control.

#### Registration

CPIM Workshops are now offered in cooperation with the Community College Workforce Alliance (CCWA) a joint partnership between J. Sargeant Reynolds and John Tyler Community Colleges.

#### Payment

For registration, payment and other administrative course details please either

Contact CCWA's Open Enrollment Training Specialist **Sandy** at (804) 440-2447  
The course number is **BUSC 2125 (Registration # 24081)**, or

#### Other Policies
