Strategic Management of Resources

Explore the relationship of existing and emerging processes and technologies to manufacturing strategy and supply chain-related functions. The course addresses three main topics: aligning resources with the strategic plan, configuring and integrating operating processes to support the strategic plan, and implementing change. Topics include:

- ✓ Competitive Market Issues
- ✓ Choices Affecting Facilities, Supply Chain, Information Technology, and Organizational Design
- ✓ Configuring and Integrating Internal Processes
- ✓ Evaluating and Managing Projects.

Purpose

Workshops are arranged by the Chapter, based upon surveys and feedback from the local membership. They are intended to help in honing industry-related skills, aid in self-development, and enhance career opportunities. By participating in Workshops, individuals are also preparing for APICS Certifications such as Certified in Production Inventory Management (CPIM) and Certified in Integrated Resources (CIRM). This material is best suited to people with either academic or on-the-job experience. They are not introductory workshops and are intended for people with some background in Production and Inventory Control.

CPIM Workshops are now offered in cooperation with the Community College Workforce Alliance (CCWA) a joint partnership between J. Sargeant Reynolds and John Tyler Community Colleges.

For registration, payment and other administrative course details please either

Contact CCWA's Open Enrollment Training Specialist **Sandy Jones** at (804) 523.2292
The course number is **BUSC 2127-01A (Registration # 74622)**

or visit their online catalog and registration site at: <http://www.ccwa.vccs.edu>
Type APICS in the "Find a Class" field and hit "Go"

Cost: **\$375** for APICS members (must give APICS ID); **\$450** for non-members

Your registration includes a Participant workbook and sample test questions. Other CPIM module study materials may be ordered directly from the National APICS bookstore.
